

RIVERSIDE SCHOOL DISTRICT NO. 2

OUR PHILOSOPHY

We are strong proponents that school experiences and learning should bring about pride at home, at school, and towards oneself. The greatness of our school district can be measured by the success of our students. In selecting the finest most highly qualified teachers to lead and inspire our students we provide the most prestigious education to our charges. We value rigorous and challenging academic and extracurricular programs built and developed around the physical, social, and intellectual needs of our students with special emphasis being placed in preparing our students for college and beyond.
